

Treatment Offer from Trianglen and European Sperm Bank

For patients referred by their general practitioner for donor insemination treatment

If you have been referred by your doctor for insemination treatment at Trianglen fertility clinic, European Sperm Bank offers a tailor-made donor package for you.

You select a sperm donor, an associated pregnancy slot (the right to use the donor) and purchase two IUI MOT 20 straws for your treatment. We reserve an additional straw from the same donor for you, which we will deliver to you free of charge if your first two inseminations do not result in a pregnancy.

YOUR BENEFITS:

SAFETY:

- If you have not become pregnant within two insemination attempts, you can use sperm from the same donor for one more treatment, without having to pay for the straw.

EASY HANDLING:

- The straws that are not sent to Trianglen before the first day of insemination will be stored for free in a sperm depot at European Sperm Bank for up to 1 year after purchase.
- You get a 50% discount on all shipments to Trianglen (Tuesday and Thursday).

ASSURANCE:

- If you become pregnant on the first attempt, you can store the surplus straw, which you have purchased and paid for, in our depot or sell it back to us. See our general conditions for buy-back on our website.
- If you become pregnant without using the third straw that we reserved for you, you still have that straw available for sibling treatment – however, you will have to pay for this straw.

HOW TO ORDER:

- 1) Create a free account at www.europeanspermbank.com
- 2) Select Trianglen as your clinic on "My Page".
- 3) Choose your donor and check that there are at least three MOT 20 straws available from the donor.
- 4) Email info@europeanspermbank.com with your donor preference and write "Tri referral" in the subject field, and we will arrange the order for you, so you only pay for two straws.
- 5) You get a sperm depot for 12 months.

This means that European Sperm Bank handles the order for you, so you only pay for two straws and get the sperm depot for free. If you have any questions, please do not hesitate to contact us via email, telephone, or our chat service.

There is also an option to book a free consultation at <https://www.europeanspermbank.com/en-int/book-consultation>
